Upon reflection you'll choose

GEORGE HUDSON PTY. LTD.

"Perfection" DOORS

FOR BEAUTY • SERVICE • SATISFACTION

EVERY "Perfection" DOOR

Every door made by George Hudson Pty. Ltd. is *"Perfection" not only in name* but in manufacture. Each *"Perfection"* door is of the *finest workmanship* and of the *best materials* available. The framed and panelled *"Perfection"* doors are manufactured from kiln-dried edge grain Oregon generally, but may also be supplied in Pacific Maple or any other timber dependant on stock available. But whatever timber George Hudson Pty. Ltd. uses, you can be assured of *a door that will not warp, lift, or drop.*

Illustrated in this booklet are *"Perfection"* specially designed doors to suit all architectural treatments from the most modern to any authentic period style.

The standard size of *"Perfection"* doors is 6′ 8″ x 2′ 8″ x 1½″. Keep building costs down by making your door openings to suit.

We will be pleased to quote for doors of special design and construction and in special figured timbers as stocks available.

We will supply for a nominal extra cost *"Perfection"* doors, machine morticed for door locks, trimmed to size, arriving all ready for hanging.

An exclusive feature of *"Perfection"* doors is the *quadruple dowelling* in 9″ rails and *twin dowelling* in top rails carried out on the most modern automatic plant in Australia. *The superior type of specialised joinery* is your guarantee of satisfaction against doors dropping and fouling the threshold.

"Perfection" SHEETED DOORS

These doors are most suited to homes which require something different. The vertical tongue and grooved effect, plain or glazed, gives the heavy solid appearance, *yet is in keeping with the more modern type of architecture.*
